If you have questions or grievances related to compliance with this policy by the Iowa Department of Education, please contact the legal counsel for the Iowa Department of Education, Grimes State Office Building, 400 E 14th St, Des Moines IA 50319-0146, telephone number 515/281-5295, or the Director of the Office for Civil Rights, U.S. Department of Education, 111 N. Canal Street, Suite 1053, Chicago, IL 60606-7204.

The average tuition for a full-time student enrolled in Iowa's community colleges will rise \$198 to \$3,566 in fiscal year 2010 (Table 1). The average tuition increase this year will be 5.86 percent. Since fiscal year 2001, tuition has grown an average of 7.01 percent per year.

The average mandatory fee charged by the community colleges is \$276.06 (Figure 3). Five community colleges do not charge students general fees (Table 15). As a result of the attached mandatory fees, the average tuition and fees per credit hour will rise to \$128.05, a 4.7 percent increase from fiscal year 2009 (Figure 4).

In comparing regional tuition rates across the Midwest, Iowa currently lies in the middle, as the fourth highest average tuition rate among the eight colleges surveyed. Wisconsin surpassed Iowa's rate to rank third this year, and Minnesota and South Dakota continue to have the highest average tuition rates in this region (Figure 7).

Over 47 percent of the community colleges' unrestricted operating revenue continues to come from tuition and fees. As Table 4 shows, this has gradually increased from the 1980 level (adjusted for inflation) of just over 24 percent, effectively doubling in the last 28 years. During that same time period and using the same inflation adjusted numbers, state general aid has decreased from just under 50 percent in 1980 to just under 37 percent in 2008.

By law, community college tuition is not allowed to exceed the lowest resident tuition charged by Iowa's public universities. In fiscal year 2010, the average community college tuition will be 38.1 percent lower than the average public university tuition rate (Figure 9).

About this Report:

The community college tuition and fees report is prepared each fiscal year. The report includes trends in tuition and fees among Iowa's community colleges as well as comparisons to Iowa's public universities and national comparisons.

Iowa's Community Colleges Resident Tuition

Table 1 lists the average tuition, lowest tuition, and highest tuition charged at Iowa's community colleges for a full-time resident student. Iowa Code limits the total tuition for Iowa residents attending community colleges so as not to exceed the lowest tuition rate per semester charged by a public university for a full-time resident student. A full-time student in this report is a student who enrolls in 15 credit hours.

Average tuition increased \$1,629 from fiscal year 2001 to fiscal year 2010, an increase of 84.4 percent. Tuition gains averaged 7.01 percent each year.

The spread between tuition amounts has increased dramatically since 2000. The difference from the highest annual tuition to lowest annual tuition has increased from \$270 in fiscal year 2001 to \$780 in fiscal year 2010.

Table 12 in the appendix lists the full-time resident tuition by college for arts and sciences and career and technical education (CTE) programs.

Iowa's Community Colleges Resident Tuition (*continued*)

The tuition per credit hour is shown in Table 2. Over the past ten years the average tuition cost per credit hour has increased from \$64.58 to \$118.85 per credit hour. Courses generally range from three to five credit hours in a community college.

Similar to average tuition, the variance between the community colleges has increased. The difference between the highest per credit hour rate and lowest per credit hour rate increased from \$9 in fiscal year 2001 to \$20.24 in fiscal year 2010. Table 13 in the appendix lists tuition per credit hour by

Iowa's Community Colleges Fees

Table 3 reflects the basic fees charged at each community college. Some colleges do not charge a separate fee in addition to their tuition charge. Moreover, these fees do not include any program specific fees.

In fiscal year 2010, average fees will drop \$4.67 to \$276.06.

Unlike tuition, fees have remained relatively flat, growing only 7.1 percent per year since fiscal year 2001.

Table 15 in the appendix of this report lists regular, recurring fees charged by each college.

Tuition and Fees per Credit Hour

Figure 4 shows the per credit hour tuition and fees. Notwithstanding additional fees, this represents the cost of enrolling in a community college. The average tuition and

fees charged per credit hour will increase \$5.69 per hour in fiscal 2010 to \$128.05. See Table 13 for a listing of individual tuition and fees charged by college.

Revenue Sources for Iowa's Community Colleges

Tables 4 and 5 reflect the major sources of revenue for the system of Iowa's community colleges adjusted for inflation. Tuition and fees is the largest share of general operating fund revenues (Table 4). This revenue comprises 47.45 percent of total revenues, down only slightly from the high in 2005.

State, local, and federal funding shares remain near 25-year lows (see Figure 5).

Nevertheless, total revenue at Iowa's community colleges has increased 101 percent after adjusting for inflation since 1980 to \$465 million (see Table 16 in the appendix).

National Comparison of Tuition and Fees

The following information uses data from *The Chronicle of Higher Education, Almanac Issue 2008-2009*. This report provides data through 2007, which is the most recent national higher education tuition data available. The information will differ from the previous section as the *Chronicle* data is based on information supplied to the U.S. Department of Education and includes student fees. Iowa Department of Education tables are based on information provided and verified by Iowa's community colleges to the Iowa Department of Education.

From fiscal year 2000 to fiscal year 2007, average tuition at Iowa's community colleges increased 52.38 percent while the national average increased 50.97 percent (see Table 6). Tuition and fees are still 55.6 percent above the national average.

Iowa has the fourth highest tuition and fees level of its contiguous states (see Table 7). Wisconsin surpassed Iowa's rate to rank third this year, and Minnesota and South Dakota continue to have the highest average tuition rates in this region.

Tuition Comparison with Iowa's Public Universities

Tables 8, 9, and 10 provide a comparison of the Iowa's community colleges average annual full-time resident tuition rate to the average tuition rate of Iowa's public universities. By law, community college tuition cannot exceed the minimum tuition at the public universities. In 2010, community college tuition will

be 38.1 percent lower than the public university average tuition (see Table 8 and Figure 8).

Iowa's public universities increased tuition 4.21 percent in fiscal year 2010, which is lower than the 5.86 percent gain for Iowa community colleges.
